

## Special Issue

# Advances in Thermal Analysis of Electrical Equipment and Power Electronics

### Message from the Guest Editors

This Special Issue, entitled “Advances in Thermal Analysis of Electrical Equipment and Power Electronics”, launched for *Energies*, (2023 IF = 3.0). The Special Issue aims at exploring the latest methods, strategies and algorithms developed for thermal analysis, especially those in the context of sustainability and better efficient systems. This Special Issue covers original research and studies related to the above-mentioned topics, including, but not limited to, power electronics and power conditioning devices, electric machines, renewable energy and energy storage systems, power transformers, industrial heating systems, fuel cells, and so on. Submitted papers will be published in this Special Issue subjected to the approval of field expertise after rigorous peer review process with the aim of rapid and wide dissemination of research results, developments and applications. We are writing to cordially invite you to submit your original research results to this Special Issue. We look forward to receiving your excellent research and development work.

---

### Guest Editors

Prof. Dr. Alhussein Albarbar

School of Engineering, Manchester Metropolitan University,  
Manchester M15 6BH, UK

Dr. Xiang Zhang

Smart Infrastructure and Industry Research Group, Department of  
Engineering, Manchester Metropolitan University, Manchester M1 5GD,  
UK

---

### Deadline for manuscript submissions

31 July 2026

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
