

## Special Issue

# New Challenges in Biogas Production from Organic Waste

### Message from the Guest Editors

This Special Issue in *Energies*, entitled “New Challenges in Biogas Production from Organic Waste”, focuses on the recent challenges in applied, laboratory scale, or theoretical research related with the new technical and technological aspects of biogas production, together with its related innovative products (biomethane, biohydrogen, biomethanol, and other biofuels). This Special Issue also focuses on biogas plant operation based on a large spectrum of organic waste, particularly on fermentation process stability, the pre-treatment of substrates (including new methods of destruction and hygienization in the case of biologically dangerous materials), efficient storage periods, and new kinds of biowaste never before (or rarely) used as a substrate for biogas plants.

### Guest Editors

Dr. Patrycja Pochwatka

Department of Geodesy and Spatial Information, University of Life Sciences in Lublin, Leszczyńskiego 7, 20-069 Lublin, Poland

Prof. Dr. Alina Kowalczyk-Juśko

Department of Environmental Engineering, University of Life Sciences in Lublin, Leszczyńskiego 7, 20-069 Lublin, Poland

### Deadline for manuscript submissions

15 October 2025

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

---

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
