

Special Issue

Energy Security of the European Union in Light of Sustainable Development

Message from the Guest Editors

The aim of this Special Issue is to present and disseminate the latest achievements in the following fields:

- Energy transition and energy security;
- Circular economy;
- Critical raw materials in energy transformation;
- Energy policy, energy independence;
- Energy diversification strategies;
- Energy acquisition from local sources;
- Stable energy sources, smart energy grids, and energy hubs;
- The role of artificial intelligence in energy transition.

Moreover, studies on other topics related to ensuring energy security during the energy transformation process in accordance with the principles and goals of sustainable development are also welcome. We invite original manuscripts, review papers, or case studies related to the above-mentioned topics. We look forward to your contributions.

Guest Editors

Dr. Aurelia Rybak

Dr. Aleksandra Rybak

Prof. Dr. Jarosław Joostberens

Deadline for manuscript submissions

24 April 2026

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
