

## Special Issue

# Climate Changes and the Impacts on Power and Energy Systems

### Message from the Guest Editors

Topics of interest for publication include, but are not limited to:

- Analysis of impacts of global warmings, increasing CO<sub>2</sub>, Gulf-stream, etc., on climate changes, temperature changes, winter storms, power and energy consumption, peak electrical loads, power grid planning, buildings energy planning, and passenger car vehicles.
- Investigating the affection mechanisms of renewable energy resources including wind, solar, hydrogen, bioenergy, biomass, geothermal, and hydropower due to climate changes.
- Technologies and solutions for electrical power and energy systems for both power grid and buildings against climate changes.
- Electrical power and energy system answers for decarbonization of transportation (road, rail, air, and pipeline), industrial, and buildings.
- Applications of technologies such as quantum computing, blockchain, Internet of Things, Artificial Intelligence, Machine Learning, and Deep Learning in climate resilience building and decarbonization of electrical power and energy systems.
- Review papers covering the state of the art of literature on climate change and impacts on power and energy systems.

---

### Guest Editors

Dr. Younes Mohammadi

Dr. Aleksey Paltsev

Dr. Boštjan Polajžer

Dr. Davood Khodadad

---

### Deadline for manuscript submissions

closed (10 October 2024)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

---

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
