

## Special Issue

# New Advances in Oil, Gas and Geothermal Reservoirs: 2nd Edition

### Message from the Guest Editor

This Special Issue aims to present and disseminate the most recent advances related to the new advances in oil, gas and geothermal reservoirs. Topics of interest for publication include, but are not limited to:

- New technologies of drilling and production in tight oil and gas reservoirs;
- New technologies for drilling and production of shale oil and gas reservoirs;
- New technologies of drilling and production in carbonate reservoirs;
- New technologies for drilling and production of fractured-cavity oil and gas reservoirs;
- New technologies for natural gas hydrate drilling and production;
- New technologies for drilling and production of geothermal resources;
- New low-energy mining technology.

### Keywords

- tight oil and gas
- shale oil and gas
- carbonate reservoir
- fractured-cavity oil and gas reservoir
- gas hydrate
- geothermal resources

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
