

Special Issue

Latest Advances and Prospects of Renewable Energies and the Environment

Message from the Guest Editor

The current Special Issue aims to present and distribute the “Latest Advances and Prospects of Renewable Energy Technologies and the Environment”, with a special emphasis on efficient and reliable conversion, modeling, application, technologies, transmission, storage, policy-making, future research, reviews, and use of renewable energy toward a sustainable environment. Prospective authors are invited to submit original research papers in the aforementioned fields. Specific topics include but are not restricted to the list below:

- renewable energies
- sustainable development
- energy and environment
- renewable energy management
- renewable energy technologies
- renewable energy modeling

Guest Editor

Dr. Hossein Yousefi

Department of Renewable Energies and Environment, University of Tehran, Tehran, Iran

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
