

Special Issue

Energy Efficiency Improvement in Process Industries

Message from the Guest Editors

This Special Issue aims to collect contributions related to energy efficiency improvement in the process industries in order to provide an overview of the state-of-the-art of emerging technologies and best practices. Topics of interest for publication include, but are not limited to:

- Energy efficiency improvement;
- Energy efficiency evaluation;
- Energy efficiency certification;
- Energy transition;
- Project feasibility study;
- Project benefit study;
- Industrial automation;
- Energy-intensive processes;
- Manufacturing processes;
- Supply chains;
- Process estimation and control;
- Optimal control;
- Predictive control;
- Real-time optimization;
- Decision support systems;
- Revamping;
- Software upgrade;
- Hardware upgrade;
- Steel industry;
- Cement industry.

Guest Editors

Prof. Dr. Silvia Maria Zanolì

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
