

Special Issue

Research on Electrolytes Used in Energy Storage Systems

Message from the Guest Editor

This Special Issue aims to highlight recent advances, unresolved challenges, and emerging strategies in electrolyte research, with a special focus on understanding, consolidating, and reframing our academic efforts towards translational impact, i.e., bridging the gap between laboratory scale research and industrial implementation. Contributions are welcome across a broad range of energy storage technologies such as, but not limited to, the following: rechargeable batteries (lithium-ion, sodium ion, zinc based, multivalent, and solid-state batteries), super capacitors, redox flow batteries, and more.

Guest Editor

Dr. Mangayarkarasi Nagarathinam
Energy Lancaster, Lancaster University, Lancaster, UK

Deadline for manuscript submissions

15 October 2025

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
