## Special Issue

## Al Facilitated Cyber-Physical Energy Systems—Planning, Operation, and Markets

## Message from the Guest Editors

We are pleased to invite contributions to this Special Issue on the topic of "Al Facilitated Cyber-Physical Energy Systems—Planning, Operation, and Markets". Prospective authors' work may focus on a single or multiple topics included in this Special Issue. Modern power systems are rapidly evolving in a manner that is characterized by the convergence of physical infrastructure with advanced communication and computational layers. This transformation has ushered in an era where artificial intelligence (AI) plays a pivotal role in enhancing the resilience, efficiency, and sustainability of power systems. In today's interconnected world, the integration of AI within cyberphysical energy systems has become indispensable. From optimizing grid operations to revolutionizing energy markets, AI technologies are driving unprecedented innovation. These advancements are not without challenges, particularly concerning security, privacy, and the seamless integration of legacy systems.

### **Guest Editors**

Dr. Stefanie Kuenzel

Department of Electronic Engineering, Royal Holloway, University of London, Egham, UK

Dr. Xiaoyu Zhang

School of Artificial Intelligence, Anhui University, Hefei, China

### Deadline for manuscript submissions

20 February 2026

## **About the Journal**

## Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University Niccolò Cusano, 00166 Roma, Italy

### **Author Benefits**

### **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

### Journal Rank:

CiteScore - Q1 (Control and Optimization)
