

## Special Issue

# Recent Advances in Renewable Energy Economics and Policy

### Message from the Guest Editors

This Special Issue aims to explore the economic and policy dimensions of renewable energy adoption, focusing on the mechanisms required to accelerate its deployment and integration into energy systems worldwide. Topics of interest include the cost-effectiveness of renewable energy technologies, the design of regulatory and incentive-based policies, and the socio-economic implications of transitioning to sustainable energy systems. Contributions that analyze carbon pricing mechanisms, renewable energy market structures, and the challenges of integrating renewable sources into existing grids are highly encouraged.

### Guest Editors

Prof. Dr. Victor Manuel Ferreira Moutinho

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

---

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
