

## Special Issue

# Energy Transport in Turbulent Times: Antecedents, Current Conditions & Future Outlook

### Message from the Guest Editors

This Special Issue will collect original research or review articles on the recent developments in energy transport for both fossil fuels and renewables. The preferred subjects for the Special Issue include the latest developments in the fields of energy economics, international trade, finance, logistics, maritime economics, and supply chain management. Both theoretical and empirical research are welcome.

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.
