

Special Issue

Advanced Technologies for Exploitation of Geo-Energy and Geo-Resources

Message from the Guest Editors

We are pleased to invite you to submit papers to the journal *Energies* for the Special Issue “Advanced Technologies for Exploitation of Geo-Energy and Geo-Resources”. The Special Issue will report on the most advanced techniques and scientific findings for boosting the development of technological innovation and enhancing the understanding for exploiting geo-energy and geo-resources. The increasingly restrictive environmental regulations and climbing operational costs are forcing the industry to seek new approaches toward meeting government requirements and improving cost-efficiency. On the other hand, the emerging theories and technologies, such as high-performance computation, novel materials, sophisticated instruments, artificial intelligence/big data, and environmentally friendly/green techniques, provide infinite possibilities for solving various problems in this field. This issue will report on the newest valuable perspectives and findings to update the existing knowledge system for optimizing the exploitation of geo-energy and geo-resources. *-in-Chief:*

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
