Special Issue

Thermal Decomposition of Biomass and Waste

Message from the Guest Editors

This Special Issue, entitled “Thermal Decomposition of Biomass and Waste”, of *Energies* aims to provide a platform for scientific and technological approaches to bioenergy technologies. While the focus is on the Thermal Decomposition of Biomass and Waste, we also aim to encompass solutions for “circular economy” and "net zero emissions" in all facets of industrial engineering. This Special Issue is aimed towards researchers, advanced students, technical consultants, and decision-makers in industry and politics.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Industrial Engineering, University Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
