

Special Issue

Advances in Control and Analysis of Power Systems

Message from the Guest Editor

The aim of this special issue is to provide examples of developments in power system analysis and control supporting the sustainable development of the electrical power systems. Potential topics include, but are not limited to:

- Methods and tools for operation and operational planning
- Advanced control solutions for secure operation
- System Integrity Protection Schemes
- Techniques for analysis of dynamic phenomena

Guest Editor

Dr. Emil Hillberg

RISE Research Institutes of Sweden, 41756 Göteborg, Sweden

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
