

## Special Issue

# Application of Management Tools in the Energy Sector

### Message from the Guest Editors

This Special Issue will deal with novel management concepts, methods, tools, and techniques for energy enterprises and chains. Topics of interest for publication include but are not limited to:

- Energy management system;
- Management concepts, methods, and tools in the energy sector;
- Management tools in decision-making processes;
- Supply chain optimization;
- Application of IoT and/or AI for energy systems;
- Control method of energy flow;
- Renewable energy;
- Demand-side management;
- Lifecycle management.

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.
