

Special Issue

Advances in Thermal and Fluid Science

Message from the Guest Editor

Many aspects in our day-to-day life are directly related to heat transfer and fluid flow phenomena. The Special Issue in Advances in Thermal and Fluid Science provides an open-access forum specifically devoted to latest advances in all areas of heat transfer and fluid science. This Special Issue aims to provide opportunities to investigators, engineers and the public worldwide to exchange novel ideas and disseminate knowledge and impactful discoveries in this field. The scope of this Special Issue includes empirical, theoretical, and numerical studies on all emerging areas including (not limited to) multidisciplinary heat and mass transfer, micro-and nanoscale science, microfluidic, multiscale and multiphysics modeling and simulation, advanced thermal management techniques, manufacturing processes, materials science, and engineering. We invite scientists, researchers, and research scholars to contribute to this Special Issue with innovative research articles. In addition to research papers, we welcome state-of-the-art and original research reviews on relevant topics. *Please scan the QR code for more information.*

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
