

Special Issue

Economics and Management in Extractive and Energy Industry —2nd Edition

Message from the Guest Editor

The extraction and energy industry has been undergoing a profound transformation in recent years, in which technological, economic, and social priorities have clashed. In addition, in different regions of the world, extraction industries are at developing at different speeds, and nonrenewable resources are being systematically depleted. Such difficult circumstances and challenges require the effective management and optimization of expenditures and costs. Therefore, this Special Issue focuses on economics and management in the mining and energy industries and covers the following topics:

- Business management tools and methods;
- Human resources management;
- Business models;
- Sustainable development and corporate social responsibility;
- Innovation, including eco-innovation;
- Cost optimization;
- Investment profitability assessment;
- Financing and capital structure;
- Value and risk management;
- Restructuring;
- Others related to management and economics in the extractive and energy industry.

Guest Editor

Prof. Dr. Izabela Jonek-Kowalska

Faculty of Organization and Management, Department of Economics and Computer Sciences, Silesian University of Technology, 41-800 Zabrze, Poland

Deadline for manuscript submissions

15 September 2025

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
