

## Special Issue

# Recent Advances in Lithium-Ion Batteries and Supercapacitors

### Message from the Guest Editors

Electrochemical energy storage in batteries and supercapacitors has recently developed into a challenging field of interest for electromobility and the use of renewable resources. This Special Issue addresses improvements and research trends in materials development, measurement technology, and the specific operating behaviour of electrochemical energy converters in technical applications.

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
