Selected Papers from BSE 2018: 9th International Conference on Biosystems Engineering

Message from the Guest Editor

Biosystems Engineering (BSE) aims to become the leading annual conference in the Baltic region for fields related to traditional and modern engineering techniques and technical solutions applied to biological systems. The goal of BSE 2018 is to gather scholars from all over the world to present advances in the field of biosystems engineering, and to foster an environment conducive to the exchange of ideas and information. This conference will also provide an ideal environment to develop new collaborations and meet experts on the fundamentals, applications, and products of the mentioned field. Among the more prominent topics of the conference are energy and fuels from renewable sources, bioenergy, waste to energy, etc.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
