

## Special Issue

# Building Energy and Environment

### Message from the Guest Editor

This Special Issue is focused on advanced strategies and solutions in minimizing energy use (passive strategy, green remodelling, highly efficient systems and facilities, etc.) and sustainably covering the energy load (renewable energy integration, energy balancing, building energy management system, etc.). Besides, Effective methods towards balancing building energy use and indoor environment (human health and comfort) are also significant.

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.
