

Special Issue

Innovative Technologies for Wastewater Treatment and Energy Production

Message from the Guest Editor

This Special Issue aims to present the most recent research related to the theory, design, modelling, application, analysis of renewable energy production, and wastewater treatment technologies. Topics of interests for manuscripts include, but are not limited to:

- Sun energy technologies;
- Wind energy technologies;
- Water energy technologies;
- Geothermal energy technologies;
- Energy from biomass;
- Fuel cells;
- Microbial fuel cells;
- Anaerobic digestion;
- Innovative wastewater treatment technologies;
- Waste into energy technologies.

Guest Editor

Prof. Dr. Renata Toczyłowska-Mamińska
Department of Physics and Biophysics, Institute of Biology,
Nowoursynowska 159 St., bldg. 34, room 76, 02-776 Warsaw, Poland

Deadline for manuscript submissions

closed (18 February 2025)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
