

Special Issue

Condition Monitoring of Power System Components

Message from the Guest Editors

This Special Issue invites papers presenting condition monitoring solutions for all grid voltage levels (low, medium, and high voltage) addressing issues linked to the generation, transmission, distribution, and consumer side components. Topics such as diagnosis techniques for component parameters, measurement systems, sensors and transducers, data acquisition and processing, onsite and remote sensing, offline and online monitoring, individual and integrated measurement capability, and other relevant aspects are welcomed. We look forward to receiving your valuable work.

Guest Editors

Dr. Muhammad Shafiq

Department of Electrical Power Engineering and Mechatronics, Tallinn University of Technology, 19086 Tallinn, Estonia

Dr. Ghulam Amjad Hussain

College of Engineering and IT, University of Dubai, 800UOD 863 Dubai, United Arab Emirates

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
