

## Special Issue

# Economic and Social Consequences of the COVID-19 Pandemic in Energy Sector

### Message from the Guest Editors

The Covid-19 pandemic has affected many sectors and areas of economic activity. One of them is the energy sector and the entire energy market. The specific economic and social effects of the Covid-19 pandemic are visible here. The aim of the Special Issue is to collect the results of research and experience on the consequences of the Covid-19 pandemic visible after a year on the broadly understood energy sector and the energy market.

- changes in the energy sector as a result of Covid-19
- the energy market during the pandemic
- changes in energy balance as a result of Covid-19
- retail and wholesale energy prices during the pandemic
- adaptation measures in the energy sector during a pandemic
- energy consumption in the private and public sectors as a result of Covid-19
- energy consumption by individual consumers and businesses during a pandemic
- innovation in the energy sector and the energy market in a pandemic

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
