

Special Issue

Innovation in Sustainable Energy Component, Concept and System Design

Message from the Guest Editor

This Special Issue call aims to attract papers reporting state-of-the-art advances in sustainable energy research in relation to component, concept, and system design. In particular, papers are welcome on examples of:

- Best practice;
- Understanding resource use and its wider impacts;
- Real-world applications, and definitive outcomes;
- Principles for new product development;
- Assessment frameworks, and design protocols;
- The consideration of unintended outcomes and their remediation.

Guest Editor

Prof. Dr. Peter Childs

FREng, FIMechE, Fellow ASME, DPhil, BSc, CEng, Dyson School of Design Engineering, Imperial College London, London SW7 2DB, UK

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
