

Special Issue

Challenges and Research Trends on the Contemporary Consumer Market of Energy and Other Products

Message from the Guest Editor

This Special Issue is seeking submissions that allow analyzing the contemporary consumer market from numerous perspectives and aims toward showing the different research approaches to the increasing challenges and visible trends in the market of energy and other products as well as the dependencies between them. Submitted papers can take the form of either regular research papers or reviews of relevant research. Keywords:

- consumer market
- challenges in the contemporary consumer market
- phenomena in the contemporary consumer market
- consumer trends
- market roles of consumer and offerors
- co-creating marketing values
- protecting the natural environment
- protecting human health

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.
