Special Issue

The Development of Renewable Energies in Poland

Message from the Guest Editors

The are inviting submissions to the Special Issue of Energies on the subject area of "Development of Renewable Energy in Poland". This Special Issue aims to highlight the challenges of the development of renewable energy in Poland, Therefore, it focuses on research areas concerning renewable energy in Poland and other EU countries. The subjects of analyses and evaluations proposed by invited researchers concern macroeconomic and technological problems regarding the state of law and scientific research, implementation of innovations, and the use of renewable energy sources in selected sectors of the economy. The presented examples of preliminary research results of the authors who have already submitted their propositions for the Special Issue of Energies, devoted to the development of renewable energy in Poland, of course, do not exhaust all the issues that are worth scientific discussion; hence, we kindly ask everyone interested in this subject to join in.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
