

Special Issue

Energy Consumption Patterns in Sustainable Supply Chains

Message from the Guest Editors

This Special Issue is not limited to the topic of electricity saving. We also are considered. As such, we invite articles providing evidence on how various actors in supply chains reduce their energy consumption to reduce the ecological footprint and what the determinants of their actions are. The scope of this Special Issue will cover a variety of topics, including, but not limited to:

- Sustainable supply chain management;
- Sustainable production;
- Sustainable logistics;
- Carbon management logistics systems;
- Design for sustainability;
- Product lifecycle management for sustainability;
- Sustainable IT for supply chains;
- Circular economy;
- The consumption and overconsumption of energy;
- Energy consumption rationalisation;
- Renewable energy sources in supply chains;
- Patterns of energy consumption;
- Sustainable energy consumption.

Guest Editors

Prof. Dr. Rafał Haffer

Department of Logistics, Faculty of Economic Sciences and Management, Nicolaus Copernicus University, Toruń, Poland

Dr. Agnieszka Szulc-Obłóza

Department of Human Resource Management, Faculty of Economic Sciences and Management, Nicolaus Copernicus University, Toruń, Poland

Deadline for manuscript submissions

closed (30 June 2022)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
