

Special Issue

Environmental Economics and Policy Analysis

Message from the Guest Editor

This Special Issue seeks to feature studies on the theoretical and empirical modelling of energy and environmental policies that could accelerate the sustainable transition towards clean energy economies. Contributions are expected to shed light on the challenges ahead and the policy levers that could help in the transition to clean energy given the economic consequences of the current global pandemic. This Special Issue is anticipated to elicit innovative economic and environmental analyses that help in shaping the clean and renewable energy future across the world.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
