

## Special Issue

# Selected Papers from 26th European Biomass Conference & Exhibition (EUBCE 2018)

### Message from the Guest Editor

The European Biomass Conference and Exhibition Conference (EUBCE), 26th edition held in Copenhagen in 2018, is one of the world's leading R&D conferences combined with an international exhibition. EUBCE represents the leading platform for the collection, exchange and dissemination of scientific know-how in the field of biomass and its utilisation. The 2018 Conference Programme addressed topics from biomass production, its conversion to bioliquids and biofuels for heat and electricity, transport and biobased products, covering all aspects of each value chain, from supply and logistics to conversion technologies, from industrial application of research results to impacts on the environment, from market and trade aspects to policy strategies, not least to the role of biomass as a source in integrated energy systems.

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

---

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
