

## Special Issue

# End-Users' Perspectives on Energy Policy and Technology

### Message from the Guest Editor

The global energy market is changing rapidly. It is very important to understand the social needs and public preferences for the energy policy and technology and reflect them fully in future energy policy and technology development. In this Special Issue, any kind of theoretical and empirical study that analyzes end users and general public's perceptions and attitudes towards energy technology and policy would be welcomed. The focus of this Special Issue is on (but is not limited to):

- Public preferences for and their attitude toward energy policy and technology;
- Social (local or nationwide) acceptance of issues in the field of energy;
- Impact of an energy policy on end-user behavior;
- Applications of stated preference methods to energy policy research;
- Valuation of novel energy technology and people's willingness to pay for it;
- Identification of social needs for energy policy and/or technology.

### Guest Editor

Dr. Sung-Yoon Huh

Department of Future Energy Convergence, College of Creativity and Convergence Studies, Seoul National University of Science & Technology, Seoul 01811, Republic of Korea

### Deadline for manuscript submissions

closed (31 October 2020)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

---

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
