

## Special Issue

# Energy Economics and Innovation of Smart Cities

### Message from the Guest Editor

The is inviting submissions to a Special Issue of *Energies* on the subject area of “Energy Economics of Smart Cities”. There are multiple definitions of a smart city. We can say that all of them co-exist so that a smart city is a city that uses technological advances (such as IoT, big data, cloud computing, AI etc.) to transform itself into an innovative ecosystem, concerned with achieving the well being of its citizens, with special attention to sustainable development (Díaz-Díaz, Muñoz, & Pérez-González, 2017a). The above is a pending challenge and to achieve that it requires four fundamental and synergistic elements in a smart city: the technological, the economic, the management of energy resources, that allow sustainable development, and the perception and social concern about these issues (Pérez-González, & Díaz Díaz, 2015; Díaz-Díaz, Muñoz, & Pérez-González, 2017b)...

### Guest Editor

Prof. Dr. Daniel Pérez González

Department of Business Administration, University of Cantabria, 39005 Santander, Cantabria, Spain

### Deadline for manuscript submissions

closed (4 December 2020)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Editor-in-Chief

Prof. Dr. Enrico Sciubba  
Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
