## Energy Geomechanics

### Message from the Guest Editors

Greetings from the of the Special Issue of *Energies* on Energy Geomechanics. We cordially invite you to submit your high-quality manuscripts to the Special Issue of *Energies* on Energy Geomechanics. This Special Issue focuses on rock mechanical aspects of energy engineering, encompassing petroleum engineering and alternative energy sources, such as geothermal, hydrogen, and nuclear energy. The manuscript may be a review paper or may be based on applied and fundamental studies using physical model testing, mathematical modelling, or field case studies. We look forward to receiving your manuscripts for this Special Issue.

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.
