

Special Issue

Advances in Management of Energy Sector Enterprises: Directions, Challenges, Opportunities, Threats and Pitfalls

Message from the Guest Editors

This Special Issue invites high-quality conceptual and research papers covering a wide range of topics related to conditions for the sustainable development of the energy sector and the realities of managing energy companies. Topics of interest for publication include but are not limited to: **Keywords:**

- Energy infrastructure;
- Green economy;
- CSR in energy sector;
- Energy safety and security;
- Resilient energy companies;
- Quality management problems from the perspective of the energy sector;
- Specificity of cooperation in energy sector;
- Energy communities;
- Nuances of knowledge management in energy sector;
- Business ecosystems of energy companies;
- Challenges of human resource management in the energy sector;
- Changes in the energy sector and the development of Society 5.0;
- Industry 4.0 in the perspective of energy sector;
- IT for energy sector;
- Cybersecurity in energy enterprises.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief
