Special Issue

Strategic Planning and Management in Energy

Message from the Guest Editor

The aim of this Special Issue is to collect and analyze issues related to energy sector management, discuss current and future research lines and practices, specific for a given country or industry in relation to strategic planning in the energy sector, to present the challenges of the energy sector, and provide general understanding of the management issues of the sector. Specific topics include, but not limited to, the following:

- Sustainable energy management of production and service
- Sustainable energy management model
- Energy infrastructure
- Green computing for sustainable development
- Impact of IT on environment
- Energy transformation towards low-emission economy
- Energy policies and strategies
- Energy institutional arrangements
- Governance of energy
- Energy safety and security
- Monitoring and compliance of energy systems
- Planning and utilization of renewable energy resources in the SMB sector
- Electricity distribution utility

Guest Editor

Prof. Dr. Robert Karaszewski

Department of Management, Nicolaus Copernicus University, 87-100 Toruń, Poland

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
