

Special Issue

Progress in Smart and Sustainable Energy Technologies

Message from the Guest Editors

The energy transition is an interdisciplinary challenge, touching all aspects of socio-economic life and requiring the interaction of actors at all levels. Collaboration and knowledge exchange between researchers working on sustainable energy issues from different perspectives is also essential. In this Special Issue we encourage the presentation of interdisciplinary studies on smart and green energy technologies, including their economic and social aspects. In particular, works on the application of smart technologies in green energy, energy efficiency of smart technologies and small-scale renewables are welcome.

Guest Editors

Dr. Edyta Sidorczuk-Pietraszko

Dr. Marcin Sulkowski

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
