

Special Issue

Management and Economics in the Energy Policy of the 21st Century: Theoretical Approaches and Practical Solutions

Message from the Guest Editor

This Special Issue will create a platform for discussing the latest developments in energy policy, management, and economics. We will cover current and promising issues of theory and practice related to energy resource management, energy system efficiency, and the social and economic components of energy policy. The inclusion of diverse approaches will allow for a deeper understanding of the challenges and opportunities facing the energy sector in the 21st century. Topics of interest for publication include, but are not limited to, the following:

- Global and regional trends in energy policy;
- State and market mechanisms of energy regulation;
- Economic growth, energy efficiency and sustainable development;
- Innovations in the energy sector and its industries: technologies, economics and management;
- The use of digital technologies in energy management;
- Solving financial problems in global and regional energy markets;
- Energy security: challenges and strategies;
- Human resource management in the aspect of energy conservation: training, recruitment, and the development of specialists.

Guest Editor

Prof. Dr. Walery Okulicz-Kozaryn

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
