

## Special Issue

# Geothermal Energy Utilization and Technologies 2020

### Message from the Guest Editors

We are inviting submissions to a Special Issue of *Energies* on the subject area of "Geothermal Energy Utilization and Technologies". This Special Issue will deal with geothermal energy utilization and technologies used for its exploitation considering both direct and indirect use applications. Topics of interest for publication include but are not limited to:

- Geothermal direct use applications (space heating and cooling, greenhouse heating, etc.);
- Cogeneration and polygeneration;
- Geothermal heat pump (ground source heat pump);
- Environmental impacts;
- Social acceptability;
- Smart energy community.

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.
