

Special Issue

Power Quality in AC and DC Distribution Grids: Monitoring, Management and Improvement

Message from the Guest Editors

Call for Submissions: Special Issue on "Power Quality in AC and DC Distribution Grids: Monitoring, Management, and Improvement." With evolving distribution systems driven by decarbonization and e-mobility, the proliferation of electric vehicle charging stations and renewable energy integration demands attention. Power electronics-based devices are growing rapidly, impacting power quality and grid dynamics. Maintaining high power quality levels and advanced grid monitoring are crucial. This special issue seeks researchers advancing PQ evaluation and improvement in both AC and DC systems. Join us to share your latest advancements.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
