

Special Issue

Green and Smart Energy and the Bid to Reconcile Climate Change and Growth Prospects

Message from the Guest Editor

The Editors of this Special Issue welcome submissions that address, but are not limited to, the following issues:

- Energy connectivity
- Regional and international collaboration in the field of energy
- EU Green Deal
- Energy efficiency and the business sector
- Energy efficiency and business development strategies
- Sustainable green transition
- Smart services and smart applications
- Smart and green technologies
- Software engineering
- Smart grids
- Sensors for energy efficiency and energy sustainability
- Energy efficiency in smart cities and smart villages context
- Regional case studies, including those pertinent to the Belt and Road Initiative (BRI), Central Europe, etc.
- Novel modes of funding and financing green, smart, and sustainable energy infrastructure development projects

Guest Editor

Prof. Dr. Anna Visvizi

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
