

Special Issue

New Trends in Green Vehicles and Sustainable Transport

Message from the Guest Editor

We are organizing a Special Issue entitled “**New Trends in Green Vehicles and Sustainable Transport**”, to be published in

Energies (<http://www.mdpi.com/journal/energies>), which might be of interest to you. This Special Issue aims to provide novel solutions for emerging scientific and technical challenges in different areas related to green and sustainable transport systems (e.g., electric vehicles, batteries, fuel cells, and renewable sources of energy for EV charging). Original high-quality technical papers, as well as survey papers, are invited for submission. Topics of interest include but are not limited to:

- Electric powertrain systems modelling and optimisation;
- New battery technologies for transport systems;
- Battery management system;
- Intelligent energy storage systems;
- Fuel cell and alternative fuels for green vehicles;
- EV fleet management systems;
- Electrified last mile delivery logistics;
- Electrification in other sectors: air and marine.

Guest Editor

Dr. Abbas Fotouhi

Advanced Vehicle Engineering Centre, Cranfield University,
Bedfordshire MK41 0HU, UK

Deadline for manuscript submissions

closed (3 May 2022)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
