

Special Issue

Economic Strategies for Integrating Energy and Sustainability: Challenges and Opportunities

Message from the Guest Editors

This Special Issue aims to focus on the economic aspects of integrating energy and sustainability, addressing the challenges and opportunities that arise when transitioning to a sustainable energy economy. We aim to foster interdisciplinary collaboration and knowledge exchange among economists, policymakers, financial experts, and researchers.

Topics of interest include, but are not limited to the following:

1. Economic Policies for Sustainable Energy Transition:

- Role of government policies and subsidies in promoting renewable energy;
- Impact of geopolitical factors on energy economics;

2. Green Finance and Investment:

- Public-private partnerships for sustainable energy projects;
- Methodologies for assessing the economic viability of renewable energy projects;
- Long-term economic benefits of sustainable energy investments.

3. Sustainable Development and Energy Poverty:

- Economic strategies to address energy poverty; Role of sustainable energy in economic development;
- Financing mechanisms for energy access in developing countries;
- Consumer behavior and energy efficiency;
- Incentives and barriers to adopting sustainable energy practices;

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
