

Special Issue

Heat Transfer Characteristics and Two-Phase Flow Performance

Message from the Guest Editors

This Special Issue is addressed to specialists from all over the world who deal with mathematical modeling and experiments on heat and fluid flow. We expect papers dealing with solutions of problems of scientific and industrial relevance in the broad fields of heat transfer and fluid transportation. Papers addressed to the Special Issue will not only solve specific engineering problems but also serve as a catalyst for future directions and priorities in the research and development of heat transfer and fluid flow.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.
