

Special Issue

Innovative HVDC and MVDC Connection Schemes for Offshore Wind Farms

Message from the Guest Editors

This Special Issue "Innovative HVDC and MVDC Connection Schemes for Offshore Wind Farms" aims to publish articles that provide novel insights for several challenges that exist in the development of MVDC and HVDC networks and the interface of wind turbines including but not limited to:

- HVDC
- Offshore Wind farms
- DC network
- MVDC
- Modular Multilevel Converters

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Industrial Engineering, University
