

## Special Issue

# Harmonics and Quality of Power

### Message from the Guest Editors

We are inviting submissions to a Special Issue of *Energies* on the subject of “*Harmonics and Quality of Power*” and related topics in the context of power quality. The contributions must be original and not previously published elsewhere. Reviews as well as survey papers addressing the new trends in the topics of the Special Issue are also welcome, and will be considered for publication. Topics of interest include, but are not limited to the following:

- Power quality in smart grids: EV impact and interaction between customer devices and PLC meters.
- Harmonics’ analysis, prediction, and propagation in power networks with high penetration of power electronics converters.
- Harmonics interaction among PV inverters.
- Power quality in HVDC systems.
- Interharmonics and supra-harmonics in networks with distributed generation.
- Mitigation of harmonics and power quality disturbances.
- New PQ measurement techniques: Big data and real time automatic analysis.

---

### Guest Editors

Dr. Monica Alonso

Department of Electrical Engineering, University Carlos III of Madrid, Madrid, Spain

Prof. Dr. Hortensia Amaris

Department of Electrical Engineering, University Carlos III of Madrid, Madrid, Spain

---

### Deadline for manuscript submissions

closed (3 November 2020)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
