

Special Issue

Selected Papers from 21st IEEE International conference on Environmental and Electrical Engineering

Message from the Guest Editor

The 21st IEEE International Conference on Environment and Electrical Engineering (IEEE EEEIC21) is an international forum for the exchange of ideas and information on energy systems. The conference provides a unique opportunity for designers and people from industry to interact with manufacturers, energy utilities people, and university researchers and to discuss a wide variety of topics related to energy systems and environmental issues. Ever-increasing awareness of environmental concerns and intensive international efforts to reduce emissions of greenhouse gases and to foster a sustainable energy transition has stimulated the best contributions toward achieving the goals of renewable energy diversification and sustainable development. IEEE EEEIC 2021 is the 21st edition of the conference, which is one of Europe's largest, longest-running professional networking and educational events. The conference has been co-sponsored by IEEE since 2008 and by EMCS, IAS, and PES since 2015.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
