## Special Issue

# Advances in Organizations in Power Markets Applications for Industry 4.0

## Message from the Guest Editors

This Special Issue in Energies addresses wide aspects of new frontiers and challenges for organizations. energy markets players, in the context of Industry 4.0. Theorethical and practical approaches, as well as methodological considerations are highly appreciated. This Special Issue invites high-quality research papers covering a wide range of topics related to organizational structures, energy optimization, sustainable development economics, economy of sharing. knowledge transfer and management, sustainable manufacturing, tracibility, industry 4.0, electromobility, Internet of things, CPS (cyber-physical systems), artificial intelligence, big data, block-chain; energy efficiency, energy marketing, renewable energy, energy poverty, artisanal mining, social responsibility management, organizational culture, CO2 foot-print and equality.

## **About the Journal**

## Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University Niccolò Cusano, 00166 Roma, Italy

### **Author Benefits**

### **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

### Journal Rank:

CiteScore - Q1 (Control and Optimization)
