

Special Issue

Innovative Economic Technologies and Policies in the Energy Sector

Message from the Guest Editor

Increased global competition for resources and markets, increased volatility of energy prices, significant growth in scientific and technological development, digitalization of the economy, environmental sustainability issues have created objective conditions for the development and formation of principles for further implementation of This special issue is devoted to the prospects of innovative development of the energy sector, further expansion and deepening of the theoretical base and practical technologies, modeling of new products and services, taking into account the main directions of the energy security doctrine, the Forecast of scientific and technological development of the energy sector and the energy Strategy of countries to enter the energy sector on a trajectory of sustainable growth. It is expected that in this special issue, innovative ideas will be presented that contribute to the formation of renewable, environmentally friendly and safe global energy.

Guest Editor

Prof. Dr. Alex Borodin

Head of the Center for the Development of Forms of Integration of Science and Education, Russian Research Institute of Economics, Politics and Law in Science and Technology (RIEPL), 20A, Dobrolubova St., 127254 Moscow, Russia

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
