

Special Issue

Progress in Inorganic Halide Perovskites

Message from the Guest Editor

This Special Issue will provide a timely opportunity to present recent progress in the field of inorganic halide perovskites with a focus on innovative devices, in addition to solar cells, as LED, lasers, gas sensors, radiation detectors, etc. Contributions dedicated to advancement in the field of high-performance devices and fundamental research are welcome. In particular, we invite submission of papers addressing issues related to material synthesis, with a focus on ecofriendly perovskites, state-of-the-art morphological, structural, and optical studies, nonlinear optical properties, transport properties, etc.

Guest Editor

Prof. Dr. Anna Vinattieri

Department Physics and Astronomy, University of Florence, Via G.Sansone 1, 50019 Sesto Fiorentino, Italy

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
