## **Special Issue**

## Advanced Technologies in Hybrid Inorganic-Organic Perovskites

### Message from the Guest Editors

This Special Issue will cover advanced research on the development of perovskite materials and films, CTL, and the related interfaces to enhance the performance of hybrid organic–inorganic perovskites-based solar cells and LEDs. We therefore invite papers and reviews related to these research topics.

- hybrid inorganic-organic perovskites
- perovskite solar cells
- perovskite LED
- charge transporting materials

### **About the Journal**

### Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University Niccolò Cusano, 00166 Roma, Italy

### **Author Benefits**

### **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

### Journal Rank:

CiteScore - Q1 (Control and Optimization)
