

## Special Issue

# Development of Intelligent Electric Vehicles and Smart Transportation

### Message from the Guest Editors

This Special Issue will consider high-quality research and review papers that address the theoretical and application aspects of intelligent vehicles and smart transportation systems. Specific topics of interest for this Special Issue include, but are not limited to, the following topics:

- Electric vehicles and hybrid vehicles;
- Green energy sources and hybrid powertrains;
- Key components of electric vehicles;
- Intelligent vehicle control and energy management;
- Control of vehicle dynamics and steering;
- Intelligent vehicle systems design and control;
- Applications of neural and fuzzy control systems;
- Vehicle modeling and performance evaluation;
- Information and communication system;
- Real-time simulation and hardware-in-the-loop system;
- X-by-wire control;
- Advanced driver assistance system;
- Autonomous vehicle system;
- Smart traffic management;
- Intelligent transportation system;
- Human interface and safety enhancement;
- Sensor and actuator technology;
- Transportation policy and traffic planning.

---

### Guest Editors

Prof. Dr. Yi-Hsuan Hung

Undergraduate Program of Vehicle and Energy Engineering, National Taiwan Normal University, Taipei 10610, Taiwan

Dr. Hwa-Dong Liu

Institute and Undergraduate Program of Vehicle and Energy Engineering, National Taiwan Normal University, Taipei 10610, Taiwan

---

### Deadline for manuscript submissions

closed (31 October 2024)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

---

### Editor-in-Chief

Prof. Dr. Enrico Sciubba  
Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
